

# Danish Stem Cell Society

## 2<sup>nd</sup> Symposium

---

Thursday, March 7, 2013 from 14<sup>00</sup>-19<sup>00</sup>

### Program

**14.00 – 14.30: Registration**

**14.30 – 15.15: Poul Hyttel**, Prof., Dept. of Health Science, Uni. of Copenhagen  
"Genetically modified pigs and stem cells for human disease modeling".

**15.15 – 16.00: Henrik Semb**, Prof., DanStem, University of Copenhagen  
"Ongoing and future basic and translational stem cell research at Danstem"

**16.00 – 16.15: Break – coffee and cake**

**16.15 – 16.30: Marianne S. Andersen**, MSc., Intern at Harvard University  
"In vivo reprogramming of exocrine cells to beta cells"

**16.30 – 16.45: Kristian Kolind**, PhD, Biomedical Engineering, Aarhus University  
"Micro- and nano-scale topographical cues guide stem cell behavior".

**16.45 – 17.30: Frank Edenhofer**, Prof. Inst. of Reg. Neurobiology, Uni. of Bonn  
"Exploring novel cellular reprogramming pathways for biomedical applications"

**17.30 – 19.00: Networking event – sandwich and refreshments.**

### Venue

**Charlottehaven, Hjørringgade 12C, 2100 Copenhagen**

**FREE registration before March 1<sup>st</sup>**
